

JUNE 16, 2008

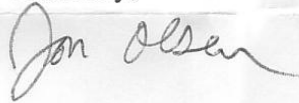

Dear Frank,

I met you at the Damariscotta Energy Exposition and bought a bottle of your fuel additive. You may recall, I was the one who told you I had invented a new flavor, if you can recall. I have been using your product and have roughly a 16% improvement in mileage. I drive a 1993 5-speed Saturn with (now) nearly 218,000 miles on it. I coast a lot in neutral and had been getting around 35 MPG on usual driving with as much as 38 MPG on long trips. The MPG I have had since using your product, as directed, on multiple measurements back to back has been:

40.4    39.45    41.76    45.35 (lots of coasting)    41.73,    and 43.0 I am pleased with the results, of course. I referred my mechanic, Greg Winchenbach, owner of Mountain Road Repair to you. He is definitely one who can help you and vice versa. He is fair, honest, and expert. He has a new large shop here in Jefferson, and not only handles passenger cars, but trucks up to trailer-truck size.

I also reported these results to the MidCoast Green Collaborative, who put together the expo where I met you and your wife.

Sincerely,

A handwritten signature in cursive script that reads "Jon Olsen". The signature is written in dark ink and is positioned below the typed name "Jon Olsen".
